Who is CUPS Health & Education Centres?

CUPS is a Calgary-based not-for-profit organization with a focus on the root causes of poverty. The goal of CUPS is to support activities that lead to lasting change for those who ask for our help in three key areas: health, education, and housing.

For twenty years we have been on the front lines working with a large population of vulnerable people of every age, all of whom have poverty and homelessness in common. We are closely in step with their healing physically and mentally.

We support a pre-school education program aimed at overcoming developmental delays known to be linked to the trauma of poverty and we work with parents to help them improve their parenting skills, family relationships and life skills.

We assist individuals and families with finding stability in their lives by moving them from shelters or homelessness into independent housing.

Our solutions are as complex as human beings sometimes can be. Through it all we are strategic and implement the identified best practices of our professions. Our support teams are unwavering in their commitment to assisting individuals and families in following through on their work plans, to achieve independence.

Today, thanks to people like you, we are a vibrant organization with a track record of thousands of lives positively affected. Embraced and financially supported by caring individuals, members of corporate Calgary, churches, forward-thinking foundations, and government, we look forward to being able to continue the work to which we are so committed.
